Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Specification

The following paragraph is inserted at the beginning of the specification:

This application is a national stage application of PCT/JP03/10551, filed August 21, 2003, which claims priority to foreign applications JP2002-244381, filed August 23, 2002, and JP2002-324056, filed November 7, 2002.

Detailed Action

This office action is a response to applicant's communication submitted March 9, 2009 wherein claims 2-15 and 19-31 are amended and claims 35-37 are cancelled. This application is a national stage application of PCT/JP03/10551, filed August 21, 2003, which claims priority to foreign applications JP2002-244381, filed August 23, 2002, and JP2002-324056, filed November 7, 2002.

Claims 1-15, 18-31, and 40 are pending in this application.

Claims 1-15, 18-31, and 40 as amended are examined on the merits herein.

Reasons for Allowance

Applicant's amendment, submitted March 9, 2009, with respect to the rejection of instant claims 35-37 under 35 USC 112, first paragraph, for lacking enablement for compositions comprising all insulin sensitivity enhancers, glucose absorption inhibitors, insulin secretion enhancers, and the like, has been fully considered and found to be persuasive to remove the rejection as claims 35-37 have been cancelled. Therefore the rejection is withdrawn.

Currently claims 1-15, 18-31, and 40 are pending in this application and have been examined on the merits herein. Applicant's amendment submitted March 9, 2009, is seen to be persuasive to remove all rejections of record in the previous office action and place the application in condition for allowance.

The claimed invention is seen to be adequately described and enabled by Applicant's disclosure as originally filed. For example, pp. 6-19 of the specification as originally filed describe the compounds recited in the instant claims. The specific compounds of claim 18 are described on pp. 38-43 of the specification as originally filed. Pp. 45-84 of the specification disclose synthetic methods that enable one skilled in the art to make the claimed compounds. Pp. 291-298 disclose hypoglycemic activities of the disclosed compounds and enable one skilled in the art to use them to treat diabetes and hyperglycemia. Therefore the claimed invention meets the requirements of 35 USC 112.

Furthermore the claimed invention is novel and non-obvious over the prior art. The prior art does not teach any glycosyl-pyrazole compounds having the specific group X-Y-N-Z in the para- position of the phenyl ring as recited in the instant claims. Although certain prior art references such as foreign patents EP1338603, EP1354888, and EP121296 (of record in PTO-1449 submitted February 22, 2005) disclose glucosyl-pyrazole compounds, one of ordinary skill in the art would not have had any motivation to modify these compounds by adding the group X-Y-N-Z as recited in the instant claims. Therefore the claims meet the requirements of 35 USC 102 and 103.

Additionally although commonly owned patent 7375087 discloses similar glucosyl pyrazole compounds it does not claim the same subject matter as the instant application and cannot be the basis for a rejection under the doctrine of obviousness-type double patenting because the claims of 7375087 require the presence of a group Z which is

carbonyl or sulfonyl attached to the nitrogen. This chemical group is not included within the range of compounds of the instant claims.

Accordingly, Applicant's amendment submitted March 9, 2009 is sufficient to remove all rejections made in the prior office action as discussed above and to place the application in condition for allowance.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled, "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric S. Olson whose telephone number is 571-272-9051. The examiner can normally be reached on Monday-Friday, 8:30-5:00.
